

**ADCC, INC.**

**ADCC, INC.** specializes in the design and installation of voice, data, video and security cabling via copper or fiber. In over 30 years we have accomplished many goals within the telecommunications / information technologies industry. We are certified W/MBE by the State of Florida and other localities and counties in South Florida. We believe in focusing on a limited number of manufacturers to really know our product line and be able to design what is Best for the Customer. Let us help YOU design, plan and install your next tenant build out or new construction project. Save time and money before the walls go up! 80% repeat business client referrals are the key to our success with each project completed on time, within budget and with the highest quality standards.

ADCC, Inc. has business relationships with many prestigious and reputable companies; Miller Construction Company, Triad Engineering, Department of Homeland Security, Hitt Contracting, Security One Systems (Ingersol Rand), NEC, Emerald Bay Resorts

(Four Seasons Exuma) Marina & Casino, Ocean World Marina & Casino, 1st United Bank, North Broward Hospital District, Republic Services and Engineering and Professional Services, Inc. (EPS).

ADCC, Inc. was the primary contractor for installation of all fiber throughout the campus facility at DSCC (Defense Supply Center Columbus). In

2003, we were responsible for the complete turnkey installation of the voice and data structured cabling system throughout several building locations at DHS Krome Avenue.

ADCC, Inc. was awarded the ABC STEP (Safety Training & Evaluation Process) Award in 2005 (Silver) and 2006 (Gold).
